DETAILS GRID

In this report, we aim to analyze Spotify data by creating an interactive and dynamic **Grid View**. The Grid will display key details such as **Album Name**, **Artist Name**, **Track Name**, and other relevant attributes.

Key Requirements:

1. Grid View with Essential Fields:

1. The Grid should present critical data points for an intuitive and structured view.

2. Drill Through Functionality:

1. Users should be able to drill through from the main reports to explore underlying data for detailed insights.
2. The drilled-through data should be exportable to a CSV file based on user requirements.

3. Drill Down, Drill Up, and Hierarchy:

1. The Grid should support hierarchical navigation, allowing users to drill down and up for in-depth data exploration.
